

## Introducing Surface Art's New Line of Large & Heavy Thin-Set Mortars

Ideal for Large-Format Tile on Floors & Walls

Premium anti-slump formulas are designed for use at 3/8" to 1/2" thickness to give improved support under large-format tile. Available in two performance levels.

### PLATINUM SUPERIOR PERFORMANCE For Interior & Exterior Installations

#### Polymer Modified Large & Heavy Thin-Set Mortar

- Single component, polymer-modified, anti-slump, thin-set mortar
- Superior adhesion to substrate and tile
- Designed for use at 3/8" to 1/2" thickness to give improved support under large-format tile
- Extended open time and inviscid fluid technology
- Available in 50-pound bags in Gray or White
