

# **LEGGE TEXSPAR PLUS**

**For the removal of Grout Haze, Heavy Dirt, Stains, Grease etc.**

Grout haze and construction debris are the two most frequently encountered complaints on newly installed tile. The Walter G. Legge Co., Inc. has worked closely with leading tile and grout manufacturers to develop a system of products to eliminate these problems. When used as directed, Texspar Plus eliminates Grout Haze on new installations. The system is also well suited for cleaning older, neglected or abused areas. Texspar Plus is recommended by tile manufacturers to remove imperfections in tile known as "peach fuzz".

## **TEXSPAR® PLUS**

An environmentally friendly, advanced formulation based on specially selected mineral polishing compounds, citrus fruit skin extracts and biodegradable surfactants. Texspar Plus offers quick removal of stubborn stains, grout haze, hard water deposits, oil, dirt, floor coatings, etc. May be used on new or existing tile and grout. Restores the natural beauty of the tile as it cleans.

To use, wet the area to be cleaned thoroughly with water, or preferably, a solution of Legge Grout Stripper or LegSolv-IT. Spread 2 to 6 cups of Texspar Plus in a 10' X 10' section and scrub by hand or with a mechanical scrubbing machine. Pick up with Wet-Vacuum or mop and rinse.
